

What do women want?

Many people ask this question and the thing is that women continue to wait for something specific that fills them completely in space and time so as not to lose life without enjoying it, so here I tell the enigmatic question that all men ask themselves: across all societies told in a pleasant way so that they can see and decipher the deals incur with the ladies from the view of a man and this is not about a sermon but about being honest or what happens to us every day and why it happens to us every day fact

prologue below I will leave you
with my experience. and in
similarity with the work task performed
man or in difference with what
who are behind with work
of the daily tasks of a house.

Precisely what he wants is
what you have to ask him.
I saw a father in the
next table at a bar
teaching the son and if he invites
a lady to dinner he asks her well
what do you want to drink do you
want to eat and the son
listened and I can also be at the table at the
side.

Now there is no specific rule about what
women want, but you can have a
generalized idea of when, for example, you
take the first communion, what they
want is to share little cards and that is
what they only want and also that you
write letters to the school to she
doesn't want to say anything even though
she is super

in love with you the things
They are planning for the future and it
is not known how much but while I wrote
the letters to you at school or
the only imploration to give her a kiss,
she already said some compliment at the
same time to someone she liked
more and that's when the
nonsense when she jumping the
rope you left it you cut it

meanwhile one that you were
the monkey ladder fell from you
for staring at you while in the neighborhood
the girls who liked you hid very well,
some other plays with you, others who
subtly harassed you, others who didn't
even bother because they were with our
friends and more so when they
entered the room.
old true stories of yours
friends about how they had
conquered a woman you liked very
easily and then how could this
whole story be possible because the girl
you liked didn't even give you any
attention and the girl who also liked
you didn't give any attention to
your friend but neither do you and the least
expected girl

thing now is to say that those
who were behind you because
of your intellectuality will be vain
for you and you, as if stunned, did not
know how to understand the
message. You even made her wait
for like five dances in a row to ask her
to dance and you didn't realize that
she was already looking at your eyes all
the time. time and maybe it was the
woman of your life because you
went with a friend who wanted to win
her over and didn't win her over and
you, like a fool, instead of
continuing to dance and conquer her
with the guitar, you followed another
path and she never appeared again
and That's when the man's grief starts to weigh on him.

And then from then on you always thought
that you were the only one then
more or less in age

When you were married or after you
were married, you realized that the
infidelity was not just yours, that's why
you should have learned it.

at 13 14 years old where he just

We started to have girlfriends and what
a good man has to understand is that
they already started to have their
boyfriends and among those
boyfriends he had perhaps much more
than you and perhaps at that age for
some men like that in love and for
other men they did not do love and
perhaps on the list of negativity you were
there and painfully but they
didn't do it out of bad luck, they did it
because they didn't

Did you know about women than what I am
teaching you or childish as he says.

We will never

Knowing everything about women, it is
known that they keep a secret between
them that is very difficult to guess, but if
you know, you better keep quiet. As long as
a woman loves you, nothing happens, the
problem is when she lets herself love
you, that's where the whole problem arises.

When you

you know teenager you are what

You handled another partner, another
girlfriend but with the condition that at that
point you either have to work or be someone
socially to have that woman that you and I
mess up too that you remember her all
your life and the more women the worse
because you remember more and by

they broke up with you because you were
left without a job you were left without
her income you were left
to be strong as they said

In the old days, and whatever women want,
they are strong men, so when you
thought he had her totally dominated and
separated from her friends, she

he commonly gave with all his
circle and you are the exception and what
do women want safe sex just like you
meanwhile had sex with someone else if
you didn't give it

account. And then there is the girlfriend of
your friends who are the ones who
kick you under the table who are crazy
about wanting to be with you but
they have the guy who won't even let
her live so what?

Women want to have strong men and let
them live, or what I mean is that we realize
that she already needed to have lovers,
which

comes the conscious cuckold saying
forever or unconscious.

So what do women want apart from giving
you a little trap that is strong, that you let
her live and that you are a good cuckold.

And then
when you got tired of all that life
women begin to look for
man of your dreams then

They talk to their friends, they talk to
their family members and without
you realizing it, you love yourself
so intelligent and you think that she is
a moron who doesn't understand, she
is listening to everything you say to her.

loading it and going to use it
for or against you or both

cases that they recommend, don't
find out. So there after having found
your love

life already tired of easy stories she has
already seen you years ago and
They even know how life is going to be
When married, where are they going to make you?
work and even those who are going
to be their in-laws while you get serious
and start with dating nonsense
without doing the
love of course and then because
women have a sense of smell you
meet the most beautiful woman that has
ever happened to you in your life with an
infernal blonde and they are so skilled
that if they met each other you will

stay with the worst and that is precisely
the one you chose

Santa María Juana and not the escort is an
intelligent party, the man who for life
takes the risk of choosing the party and
not the bent one, so to speak,
but this is already

everything written in destiny or is it
What they spoke I don't know. But it is
even more complicated because
when you go to live together,
women who hate you begin to appear
in a magical way and tell you how hateful
you are and ask you so badly that you
already begin to lower your self-esteem.
It is the first step on the ladder that It lowers
your self-esteem along with your wife who
stays sleeping in your

home while you go crazy
and you do it you know why to get
pregnant because he chose you. After
he chose you, she got pregnant, well, I
choose, I waited a few years, he did
everything a woman wanted and then he
let you, which was also what a woman
wanted, and not only that, but he
sporadically gave you a good laugh
and she wasn't the only one, they left.
to laugh more than two but you

you are going to give two accounts nothing
further. And yours is maternal love
woman until she tells him I'm not your
mother, that's it, then what do
women want you to support your child
that's why they don't leave you without
a job.

So we're already seeing that women don't want much, it's something like you think you're cheating on her at the beginning of the relationship and she's cheating on you and that you're cheating on her at the end of the relationship and she's cheating on you.

she. So what do women want when they let you chase them even if they beg you, don't call them even if they beg you and leave you totally destroyed and in misery. But it's not out of malice, it's because you don't know what you want from women or a lady, it's the details.

Beach is not made with a grain of sand but a grain of sand contributes to make the beach that is what love is about and

I think that what women want is for men to treat them better. Get rid of the idea that they care about money because throughout my life I never had to pay for sex so that is wrong as long as there are no children involved.

So, summarizing what women want, now that there are social networks, men do not stop at the mere fact of conquering them but rather take action. Women think properly that there is no need to waste time in life, that everything is done like this for love. They have had five children from different husbands, they think like this. Then there is

I have to conquer everything that I said
before that I don't want to name again
and remember that a lady is a lady
incomparable to any other woman,
that's the one you missed, you idiot. If you
are not going to treat her as she
deserves, it is better to raise a cat, a
dog, a horse, they will understand, they
are a little more humble, but you
are not going to waste your time.

a lady that is, when I look at a
single look at that single woman for what
He is going to look so many times,
why is he going to shine at the other
man's wife unless he touches her leg
or whispers things in her ear that
are normal for human weakness and
beyond jealousy, the man has to have the

Sufficient maturity and training to understand that in a relationship problems come on their own and that you don't have to be futuristic, but it is very good to have a bowling alley, a full wallet in your car, and that I went wherever I want. That's a safe woman. That's what a woman wants. . And put a little humor in it too because like

change the fashions change the women and sometimes the fashion is to change husband or boyfriend or lover and suddenly you have the worst part, I don't know if it is staying with her or not.
